Build-A-Box

Modular Aluminum Trench Shielding System

Purpose:

The Build-A-Box Modular Aluminum Trench Shielding System can be assembled in minutes to a wide variety of configurations. The modular system enables work crews to make on-the-spot design changes to meet job requirements in conditions ranging from light to extreme. Build-A-Box is compatible and stackable with Efficiency's XLAP Aluminum Trench Shields.

Common Applications:

- Sewer & Water Valves
- Hydrants & Taps
- Spot Repairs
- Gas and Electric Utility

Features:

- Compatible with XLAP
- Pick-up truck transportable
- Can be hand-assembled in minutes
- Narrow, smooth aluminum sidewalls reduce dirt build-up
- Tongue and groove design
- Foam-filled
- Pulling and lifting lugs
- Professional Engineer design and depth certification

Options:

- T-connection cut-outs
- Telescoping spreader sets
- Sectional or Full Length corner posts
- 3 or 4-way corner posts
- Octagon-configuration corner posts

Spreader Options:

- XL adjustable spreaders
- Spreader arches

XLAP™

“Xtra Light” 3 in. Aluminum Panel Trench Shields

Purpose:

Efficiency’s XLAP series aluminum panel trench shields are designed specifically for municipalities, utilities, and contractors who use rubber-tired backhoe/loaders and small excavators for trenching. XLAP is compatible and stackable with Build-A-Box.

Common Applications:

- Sewer & Water Valves
- Hydrants & Taps
- Spot Repairs
- Gas and Electric Utility

Features:

- Compatible with Build-A-Box
- Narrow, smooth aluminum sidewalls reduce dirt build-up
- Foam-filled
- Pulling and lifting lugs
- Professional Engineer design and depth certification

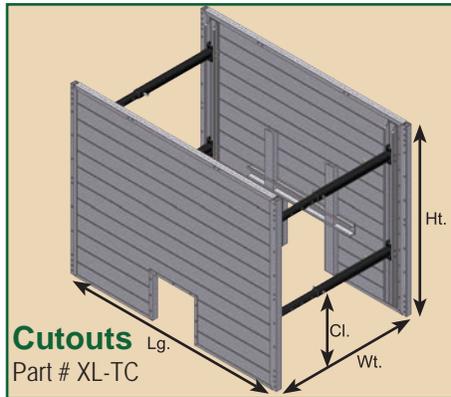

Options & Accessories:

- T-connection cut-outs
- End panel connector bracket
- Stacking pockets
- knife edge
- Adjustable legs
- Wheel kit

XLAP & Build-A-Box

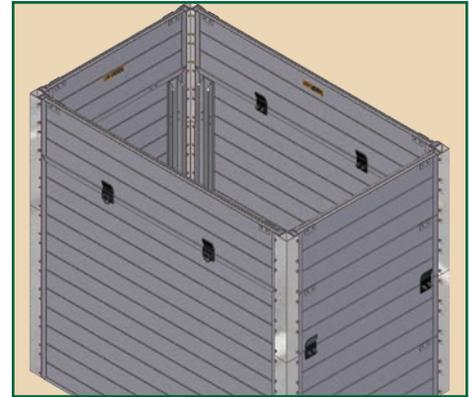

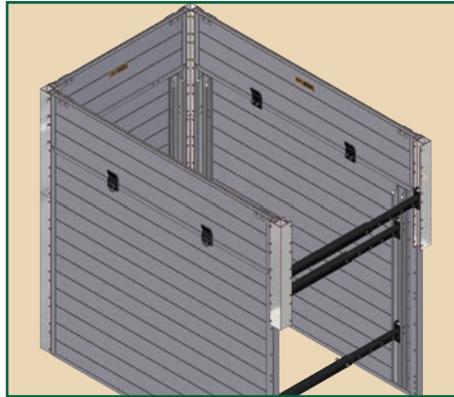

Compatibility & Flexibility with XLAP/Build-A-Box Combo

Purpose:

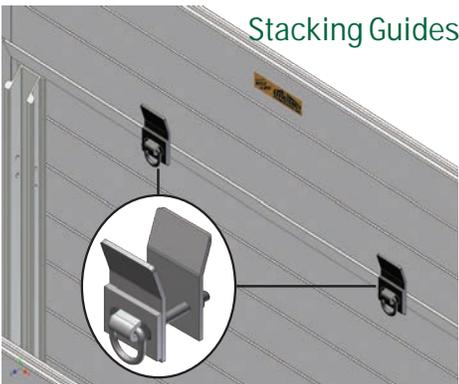

XLAP is **compatible** and **stackable** with Efficiency's Build-A-Box modular aluminum trench shielding system which allows contractors and municipalities to make **on-the-spot** modifications to the shield.

Common Applications:

- Sewer & Water Valves
- Hydrants & Taps
- Spot Repairs
- Gas and Electric Utility

Build-A-Box Stacked on XLAP

Stacking Guides

XLAP-SF

“Xtra Light” 3 in. Aluminum Panel Trench Shields with Steel Frame

Purpose:

Efficiency’s XLAP-SF series aluminum panel trench shields with steel tube frames offer greater rigidity to the box that is ideal for utility work or other spot repair, but are still light enough to be handled by rubber-tire backhoes or small excavators.

Common Applications:

- Sewer & Water Valves
- Hydrants & Taps
- Spot Repairs
- Gas and Electric Utility

Features:

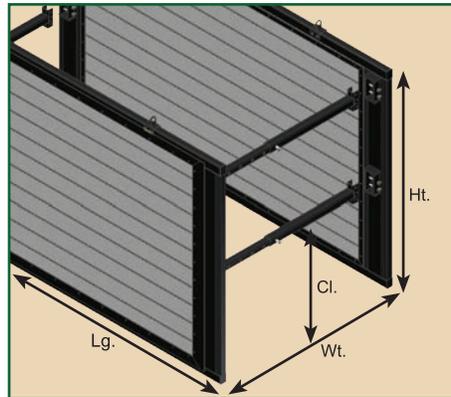

- Narrow, smooth aluminum sidewalls reduce dirt build-up
- Foam-filled
- Wrapped steel frame sidewalls
- Professional Engineer design and depth certification

Options:

- Stacking pockets
- Knife edge

Spreader Options:

- XL adjustable spreaders
- 5 in. collar pipe for **6” schedule 80** spreaders
- 7 in. collar pipe for **8” schedule 80** spreaders

Alum-A-Shield™

Corrugated Aluminum Shield w/ Hydraulic or Static Spreaders

Purpose:

Alum-A-Shield is a single wall corrugated shield that is designed to be light and strong. Available with static or hydraulic spreader sets, Alum-A-Shield is designed specifically for municipalities, utilities, and contractors who use rubber-tired backhoe/loaders and small excavators for trenching.

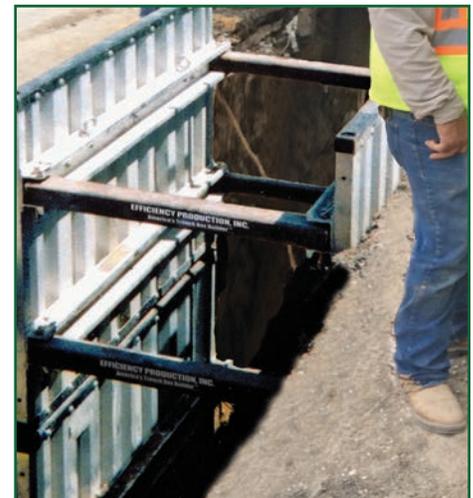

Common Applications:

- Sewer & Water Valves
- Hydrants & Taps
- Spot Repairs
- Plumbing

Features:

- Full length horizontal waler for greater depth rating
- Molded tubular end members with recessed stacking or leg sockets
- Top and bottom steel caps
- Professional Engineer design and depth certification

Options:

- End panel kit
- Leg kit
- Stacking pins

Spreader Options:

- Hydraulic Telescoping Quickbrace*
- Static Telescoping Quickbrace
- 3.5 in. Square Spreaders

Corru-Lite™

Lightweight Corrugated Aluminum Trench Shield

Purpose:

The Corru-Lite Shield is made of lightweight corrugated aluminum and is primarily used for light utility work or plumbing. Corru-Lite can be easily transported in the back of a pick-up truck.

Common Applications:

- Sewer & Water Valves
- Hydrants & Taps
- Spot Repairs
- Plumbing

Features:

- Pick-up truck transportable
- Can be hand-assembled in minutes
- Molded tubular end members with recessed stacking or leg sockets
- Top and bottom steel caps
- Professional Engineer design and depth certification

Options:

- Leg kit for up to 2 ft. additional pipe clearance
- Stacking pins

Spreader Options:

- Static Aluminum
- Adjustable Aluminum
- Adjustable Steel

Shoring Trailer Racks

Customizable shoring equipment racks for Shoring Trailers

Efficiency's customizable shoring equipment trailer racks are a perfect way to transform a standard trailer into a **FullStock Aluminum Shoring Trailer (FAST)**

Shoring Trailers are ideal for Public Works crews encountering a variety of excavation projects, since all necessary tools are available...no return trips to the yard for missing equipment.

All racks and other options can be re-sized, repositioned, and re-configured to fit your specific needs.

NOTE: Base tailers are not included and must be provided.

Aluminum Shield Rack Options:

- Racks and tie-downs that secure an XLAP, Alum-A-Shield or Corru-Lite aluminum trench shield
- Modular Build-A-Box Panel and Corner Post racks
- Spreader racks for 2 or 3-sided Build-A-Box systems, or XLAP aluminum trench shield
- Workbench and toolbox for Build-A-Box pins and keepers, slings, and other tools

Vertical Shores Series:

- Vertical Hydraulic Shores rack
- FinnForm Shoring Boards rack
- Toolbox for shoring accessories, parts and tools
- Workbench for cylinder repair
- Hydraulic Cylinder Test Stand
